OMB NO. 0579-0036

ANNUAL REPORT OF RESEARCH FACILITY (TYPE OR PRINT)

2. HEADQUARTERS RESEARCH FACILITY (Name and Address, as registered with USDA, include Zip Code)

UNIVERSITY OF SOUTH FLORIDA
12901 BRUCE B. DOWNS BLVD., MDC 20
TAMPA, FL 33612
(b)(6), (b)(7)c

3. REPORTING FACILITY (List all locations where animals were housed or used in actual research, testing, teaching, or experimentation, or held for these purposes. Attach additional sheets if necessary.)

FACILITY LOCATIONS/sites

See Attached Listing

REPORT OF ANIMALS USED BY OR UNDER CONTROL OF RESEARCH FACILITY (Attach additional sheets if necessary or use APHIS FORM 7023A)

A. Animals Covered By The Animal Welfare Regulations	B. Number of animals being bred, conditioned, or held for use in teaching, testing, experiments, research, or surgery but not yet used for such purposes.	C. Number of animals upon which teaching, research, experiments, or tests were conducted involving no pain, distress, or use of pain- relieving drugs.	D. Number of animals upon which experiments, teaching, research, surgery, or tests were conducted involving accompanying pain or distress to the animals and for which appropriate anesthetic, analgesic, or tranquilizing drugs were used.	E. Number of animals upon which teaching, experiments, research, surgery or tests were conducted involving accompanying pain or distress to the animals and for which the use of appropriate anesthetic, analgesic, or tranquilizing drugs would have adversely affected the procedures, results, or interpretation of the teaching, research, experiments, surgery, or tests. (An explanation of the procedures producing pain or distress in these animals and the reasons such drugs were not used must be attached to this report)	F. TOTAL NO. OF ANIMALS (Cols. C + D + E)
4. Dogs					
5. Cats		4	18		22
6. Guinea Pigs			136		136
7. Hamsters					
8. Rabbits			24		24
9. Non-Human Primates			119	9	128
10. Sheep					
11. Pigs			180		180
12. Other Farm Animals					
13. Other Animals					
Ferrets			3		3

ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all the exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

CERTIFICATION BY HEADQUARTERS RESEARCH FACILITY OFFICIAL (Chief Executive Officer or Legally Responsible Institutional official)

I certify that the above is true, correct, and complete (7 U.S.C. Section 2143)

SIGNATURE (b)(6), (b)(7)c	DATE SIGNED 11/17/06

Column E Explanation

This form is intended as an aid to completing the Column E explanation. It is not an official form and its use is voluntary. Names, addresses, protocols, veterinary care programs, and the like, are not required as part of an explanation. A Column E explanation must be written so as to be understood by lay persons as well as scientists.

1. Registration Number: 58-R-0015

2. Number 9 of animals used in this study.

3. Species (common name) Non-Human Primates of animals used in the study.

4. Explain the procedure producing pain and/or distress.

The natural aging process and the development of diabetic-related conditions and associated pathologies or other unrelated intercurrent pathologies can potentially produce discomfort, distress, or pain in animals. Veterinarians are always consulted when pain, discomfort, or distress is recognized. All pathological processes including those associated with the aging and pre-diabetic and diabetic condition are evaluated and those that are amenable to current veterinary medical care standards are promptly placed on appropriate therapies. Regardless, in a life-long aging colony of animals selected as diabetic or pre-diabetic, the surreptitious development of multiple intercurrent pathologies introduces the opportunity for undetected and unalleviated discomfort, distress, or pain.

5. Provide scientific justification why pain and/or distress could not be relieved. State methods or means used to determine that pain and/or distress relief would interfere with test results. (For Federally mandated testing, see Item 6 below)

Animals are used in the study of the development and treatment of diabetes and related conditions. The natural aging process and the development of diabetic-related conditions and associated pathologies, or other unrelated intercurrent pathologies, can potentially produce discomfort, distress, or pain. Veterinarians are always consulted when pain, discomfort, or distress is recognized. All pathological processes including those associated with the aging and pre-diabetic condition are evaluated and those that are amenable to current veterinary medical care standards are promptly placed on appropriate therapies.

6. What, if any, federal regulations require this procedure? Cite the agency, the code of Federal Regulations (CFR) title number and the specific section number (e.g., APHIS, 9 CFR 113.102):
